LEADING
TECHNOLOGY SOLUTIONS
PROVIDER IN OMAN

enbaar.om

Established in 2006

Enbaar Technology Services has been working with individuals, private enterprises, and Government institutions by providing them simple and intelligent IT solutions.

Our solutions begin from IT Infrastructure at their homes and workplaces, to implementation of software to boost everyday efficiency, and up to Web and Mobile Application development to place you in the competitive digital forefront.

Our success would not be possible without our customer's trust & confidence, and our dedicated employees who have shared in our incredible journey of success. We have a pool of brilliant people who combine knowledge, skill, experience, and imagination. Our focus is transparent to provide our customers exceptional service, high quality, value and most importantly earn your trust.

Vision

To be the leading service provider in the IT sector and to extend our experience in Converged Technology Systems to all major verticals across Oman, profitably and to the advantage of our clients & suppliers.

Mission

We believe in serving our customers with a consistently high level of quality service while creating and maintaining an environment in which employees flourish to the best of their abilities. The ultimate goal is to create an outstanding brand value for our end users.

Philosophy

The success of a project relies on the ability to develop an appropriate solution from concept to completion of any requirement. We view every project as a unique opportunity, learn from the successes, challenges and consistently provide innovation & affordable solutions.

Audio Video Systems

Audiovisual (AV) facilities are a part of everyday life. A great AV setup makes powerful first impressions and inspires greater collaboration amongst teams and between organizations. This advancement in communication is presenting a multitude of benefits for companies across various industries.

State-of-the-art Audio & Video Systems, customized to meet your current and future needs.
